

Production Planner / Scheduler

We have a brand new opportunity for an experienced Production Planner / Scheduler to join our team on a full time, permanent basis. Supporting the Production Manager with clear, data-driven production schedules and working closely with the Engineering team, this is a role of crucial responsibility within the business.

The Role

As a Production Planner, you will be responsible for:

- Acting as a key liaison point between Project Management and Production
- Planning labour hours for multiple projects, identifying process times, material leadtime and delivery and customer delivery points to ensure the most effective utilisation of available labour.
- Providing accurate needs of working hours and capacity levels to the Production Manager and Engineering
- Providing notification of additional hours available to allow the teams to have advanced warning of potential overtime
- Monitoring stock availability
- Communicating known Production delays in a timely manner
- Attending weekly Production meetings and presenting data to explain notable changes and/or issues
- Compiling detailed Production output figures for month end reporting
- Understanding factory safety standards and following safety protocol

About Us

Vessco Engineering Ltd is an ambitious and fast-growing manufacturer of pressure vessels, heat exchangers and fabricated equipment. Recently Vessco Engineering Ltd joined the LTI Metaltech Group, a €130m European Engineering Group. We are seeking a Senior Project Engineer to liaise with our customers on jobs ranging in value and size from a few thousand pounds up to a million pounds. The essence of the job is to ensure that the customers' requirements are correctly interpreted and that Vessco delivers high quality products on time.

For further information, take a look on our website <https://vesscoengineering.co.uk/>

About You

To be a successful Production Planner, you must have had extensive experience within a Manufacturing / Production Planning role. Having been exposed to Project Management led planning before, you will have advanced Excel skills and ideally have worked in Engineering previously.

Proactive in your approach and confident with decision making, you must have strong written and verbal communication skills and enjoy working in a fast paced, problem solving role.

Additional Information:

- Salary - £24,000 to £28,000 depending on experience
- Working hours (39hours per week) – Monday to Thursday 8am to 5pm, Friday 8am to 1pm
- 25days annual leave + bank holidays

How to apply:

Recruitment is being driven through our central resource at LTI Metaltech Ltd therefore please send your CV and one page cover letter explaining why you are interested in joining Vessco Engineering Ltd to recruitment@lti-metaltech.com

No agencies please.
